

SYNC User Guide

How to use it, screen by screen

A step-by-step tutorial for everyone who works in SYNC. Every screen in turn: how to open it, what to do on it, what each button does, how to filter the list, and every form it asks you to fill in.

Start here	Part 1 — signing in and where you land
On a computer	Part 6 — every screen, one at a time
On a phone	Part 7 — the same work with a thumb
Taking applications	Part 4 — the form the public fills in
Stuck on a control?	Part 5 — the buttons that appear on every screen
Version	29 July 2026

Each screen entry tells you what you need to be to open it. If a screen in this guide is not in your menu, your role does not have it — ask an administrator.

8. Status words you will see	108
8.1 Application status	108
8.2 Job order visit status	108
8.3 Billing and commission status	108

1. Getting started

1.1 Signing in

1. Open the site on a computer, or the app on your phone.
2. Enter your e-mail address and password, and sign in.
3. You land on your own home screen. The menu shows only the screens your job needs, so it will be shorter than the full list in this guide.

Where you start

If you are	You land on
An administrator	Dashboard, with the day's figures
An agent	Your own dashboard, showing your earnings and your referrals
A technician	Job Order, already narrowed to the work assigned to you
Outside-plant staff	Work Order, already narrowed to the work assigned to you
Inventory staff	Inventory
A head technician	Application
A customer	Your own dashboard, showing what you owe

1.2 Being signed out

You will not stay signed in for ever. What happens depends on where you are working.

	On a computer	On a phone
You leave it idle	Nothing happens straight away.	A warning appears after an hour and a half. Touch the screen and it goes away.
You keep ignoring it	Eventually you are returned to the sign-in screen.	You are signed out after two hours of doing nothing.
You come back later	You may have to sign in again.	Time away counts even with the app closed. Away too long, and you will be signed out.

TECHNICIANS: THE EVENING REMINDER

If you are still timed in at 9:00 PM the app reminds you, and again at ten past. Time out, so your hours are recorded properly.

SHARING A COMPUTER OR A PHONE

Signing out clears everything you were looking at, so the next person cannot see your records. Always sign out on a shared device.

2. Finding your way around

2.1 The frame

Every screen sits in the same frame: a header strip across the top, a navigation sidebar down the left, and the screen itself filling the rest.

Header controls

Control	What it does
Hamburger (far left)	On a desktop, collapses the sidebar to an icon-only strip; hover an icon for its name. On a phone, slides the sidebar in and out.
Sun / moon	Switches between light and dark themes. The choice is saved to your account, so it follows you to another browser.
Bell	Recent activity — new applications and completed job orders — newest first. "Clear All" empties the list for you only. Desktop notifications appear if you allow them.

CUSTOMERS SEE A DIFFERENT HEADER

Customer accounts get a simplified header with Dashboard, Bills and Support links and no sidebar at all.

2.2 Sidebar map

The table below is the complete sidebar. Grouped entries expand when clicked; a group is hidden entirely when a role can see none of its children.

In the menu		You see it if you are
Dashboard		an administrator or a system administrator
Dashboard		an agent
Monitoring		a system administrator or an administrator
Billing	opens a group of 12	an administrator or a customer
Customer		an administrator or a head technician
Transaction List		an administrator
Revert Requests		a system administrator or an administrator
Payment Portal		an administrator
Statements		an administrator
Invoice		an administrator
Overdue		an administrator
SO Charge		an administrator
DC Notice		an administrator
Rebates		an administrator
Staggered		an administrator
Discounts		an administrator

In the menu		You see it if you are
Application		an administrator or a head technician
Job Order		an administrator, a technician, an agent or a head technician
Service Order		an administrator, a technician or a head technician
Work Order		an administrator, an agent, outside-plant staff or a head technician
LCP/NAP Location		an administrator, a technician, outside-plant staff or a head technician
SMS Blast		an administrator
Reports		an administrator or a system administrator
History		an agent
Agent	opens a group of 4	an administrator or a system administrator
Pay Out/In		an administrator or a system administrator
Team Agents		an administrator or a system administrator
Agent Management		an administrator or a system administrator
Agent Payout		an administrator or a system administrator
Inventory	opens a group of 2	an administrator or inventory staff
Inventory		an administrator or inventory staff
Inventory Category List		an administrator or inventory staff
Configurations	opens a group of 17	a system administrator or a head technician
Promo		a system administrator
Plan		a system administrator
Location		a system administrator or a head technician
LCP		a system administrator or a head technician
NAP		a system administrator or a head technician
Usage Type		a system administrator
VLAN Config		a system administrator
Payment Method		a system administrator
Work Category		a system administrator
Radius Config		a system administrator
SmartOLT Config		a system administrator
SMS Config		a system administrator
SMS Template		a system administrator
Email Templates		a system administrator
PPPoE Setup		a system administrator
Concern Config		a system administrator
Billing Configurations		a system administrator
Users	opens a group of 5	a system administrator
Users Management		a system administrator
Tech Users		a system administrator

In the menu		You see it if you are
Team Agents		a system administrator
Organization		a system administrator
Roles		a system administrator
Logs	opens a group of 8	an administrator
Disconnected Logs		an administrator
Reconnection Logs		an administrator
SMS Logs		an administrator
Email Logs		an administrator
Data Logs		an administrator or a system administrator
Smart OLT Logs		a system administrator
Radius Logs		a system administrator
System Logs		a system administrator
Settings		a system administrator

3. Using it on a phone

3.1 The bottom bar

The mobile app has no top navigation. A floating rounded bar sits at the bottom of every screen and holds up to three destinations plus a "More" tab. Which destinations appear depends on your role; the active one is marked with a coloured pill that slides as you move between tabs.

- **Up to three tabs** — the first destinations your role can reach.
- **More** — expands a panel showing every destination, grouped under headings, three per row. Tapping the dimmed background closes it.
- **Menu** — your profile, notifications, About App and Release Notes; administrators also get the full configuration list here.

3.2 Destinations by group

Where you can go	You see it if you are
Operations	
Dashboard	an agent
Dashboard	a customer
Application	an administrator or a head technician
Job Order	an administrator, a technician, an agent or a head technician
Service Order	an administrator, a technician or a head technician
Work Order	an administrator, a technician, an agent, outside-plant staff or a head technician
LCP/NAP	an administrator, a technician, outside-plant staff or a head technician
Billing	
Bills	a customer
Overdue	an administrator
Agent	
History	an administrator or an agent
Inventory	
Inventory	an administrator or inventory staff
Categories	an administrator or inventory staff
Configurations	
Promos	an administrator
Plans	an administrator
Locations	an administrator or a head technician
LCP List	an administrator or a head technician
NAP List	an administrator or a head technician
Usage Types	an administrator

Where you can go	You see it if you are
Payment	an administrator
Work Cat.	an administrator
RADIUS	an administrator
SmartOLT	an administrator
SMS Config	an administrator
PPPoE	an administrator
Concerns	an administrator
Billing Cfg	an administrator
Logs	
SMS Logs	an administrator
Email Logs	an administrator
File Logs	an administrator
Expenses	an administrator
Account	
Support	a customer
Menu	a customer, a technician, an administrator, inventory staff, an agent, outside-plant staff or a head technician

3.3 The Menu tab

Every role sees Notifications, About App and Release Notes. Technicians additionally get Time In/Out. Administrators get the whole configuration tree, grouped as below.

Group	Entries
Menu	Time In/Out, Notifications, About App, Release Notes
Operations	Monitoring, Applications, App Visits, Job Order, Service Order, Work Order, LCP/NAP Location, SMS Blast, Reports
Billing	Customer, Transaction List, Revert Requests, Payment Portal, Statements, SOA Generation, Invoice, Overdue, SO Charge, DC Notice, Rebates, Discounts, Billing List, Staggered Payment
Agent	Pay Out/In, Team Agents, Agent Management, Agent Payout, Affiliates
Inventory	Inventory, Inventory Category List
Configurations	Promo, Plan, Location, LCP, NAP, Usage Type, Payment Method, Work Category, Status Remarks, Router Models, Ports, Radius Config, SmartOLT Config, SMS Config, SMS Template, Email Templates, PPPoE Setup, Concern Config, Billing Configurations
Users	Users Management, Tech Users, Organizations, Roles
Logs	Disconnected Logs, Reconnection Logs, SMS Logs, Email Logs, Data Logs, Smart OLT Logs, Radius Logs, System Logs, SMS Blast Logs, Expenses
System	Database Setup, Database Test, Settings

4. The public application form

This is the sign-up form the public fills in to apply for a connection. Nobody needs an account to use it. A submission arrives in your Application queue straight away, ready to be worked exactly like one you keyed in yourself.

Page	What it is for	Who can use it
The form	Applying for a connection	Anyone, with no sign-in
Sign in	Staff getting to the dashboard	Anyone can try; you need an account to get in
Dashboard	Seeing what came in, and restyling the form	Staff who have signed in

4.1 The application form

The form has two layouts and the office chooses which the public sees: a single long page, or a three-step wizard. The wizard shows a numbered progress strip along the top, and a step turns coloured as you complete it.

Step	Heading	What is asked
1	Contact Info	E-mail, mobile number, first name, last name; optional middle initial and second mobile number.
2	Installation Address	Region, city or municipality, barangay, the address itself, a landmark, and optionally a pin on the map.
3	Plan & Documents	Plan, referrer, promo code, the supporting documents, and the privacy agreement.

What must be filled in

Each step is checked before it will let you move on. Anything missing or malformed is listed by name in a dialog, so the applicant is told exactly what to go back and fix.

Step	Required	Rule
1	E-mail	Must contain an @ and a domain.
1	Mobile	Must be 09 followed by nine digits.
1	First name, last name	Must not be blank.
2	Region, city, barangay	Chosen from the searchable lists, each narrowing the next.
2	Installation address, landmark	Must not be blank.
3	Plan	Chosen from the list of published plans.
3	Primary government ID	Required whenever the office has that upload switched on.
3	Privacy agreement	Must be ticked.
3	Promo proof	Required only if a promo code was entered.

Picking the location on the map

1. Open the map. It opens centred on the service area with the covered radius drawn around it.

2. Either drag the pin, or press Get My Location to use the device position.
3. Press Confirm Location. The point is measured against the service area; if it falls outside, a notice appears and the point is refused, so an applicant cannot pin an address the network does not reach.
4. Inside the area, the coordinates are written to the form and the map closes.

Attaching documents

Each slot has an Upload File button. On a phone it opens the rear camera directly, so the applicant can photograph a document there and then instead of hunting for a saved copy. An attached file shows a preview with a cross in the corner to remove it and start again. Which slots appear at all is decided by the office — see 6.3.

Slot	Normally required
Primary government ID	Yes, when switched on
Secondary government ID	No
Proof of billing	No
House front photograph	No
Promo proof	Only when a promo code is entered

Submitting

1. On the last step, press Submit. While it is working the button reads Submitting.
2. If the anti-spam check is switched on, a small addition sum must be answered first. A wrong answer highlights the box and blocks the submission; Generate new question swaps the sum.
3. On success a confirmation dialog appears and the application is queued for the office. The wording of that dialog is set by the office.

TERMS AND PRIVACY

The terms and conditions and the privacy policy open in their own dialog from links on the form. Both texts are editable by the office, so they can be kept current without a code change.

4.2 Staff sign-in

Sign in with a username and password. The button reads Logging in while it works, and a failed attempt shows a message rather than clearing the form. A successful sign-in stores a token and opens the dashboard; opening the dashboard without one sends you back here.

4.3 Submissions dashboard and form designer

The dashboard has two jobs: showing what has come in, and letting the office restyle and reconfigure the public form without touching code.

What it shows

- **Counters** — total applications, and how many are pending, approved and rejected.
- **Recent applications** — the latest submissions, newest first.
- **Brand name and logo** — as they appear to the public.
- **Logout** — top right, with a confirmation.

Editing the form

Edit puts the form into design mode; Cancel leaves without keeping the changes, and you are warned if there are unsaved ones. In design mode you can set:

Setting	Effect
Layout	Single-page form, or the three-step wizard.
Brand name and logo	The name and mark shown at the top of the public form.
Background colour	The page behind the form.
Form colour and opacity	The form panel itself, and how far the background shows through.
Button colour	Every button, the progress strip and the map pin.
Document slots	Whether proof of billing, primary ID, secondary ID and the house front photograph are asked for at all.
Second mobile number	Whether the optional second number is offered.
Anti-spam check	Whether the addition sum is required before submitting.
Terms and conditions	The text behind the terms link.
Privacy policy	The text behind the privacy link.
Contact information	The contact block shown to applicants.
Confirmation wording	The message in the dialog after a successful submission.

TURNING A SLOT OFF REMOVES THE REQUIREMENT

The primary ID is only enforced while its slot is switched on. Switching a slot off removes both the upload and the check on it, so the form stays consistent with what is being asked for.

5. Controls you will use on every screen

Most list screens in the web portal are built from the same parts. Learn them once and every list behaves predictably.

5.1 Search

The search box scans every visible value in the row, not just one column. Spaces are ignored and case does not matter, so "juan dela cruz" matches "JuanDelaCruz". Searching also lifts the "hide finished work after a day" rule, so a technician can find an older completed job by name.

5.2 The funnel filter

The funnel icon opens a panel listing every field you can filter on, sorted alphabetically, with the active ones marked. Pick a field and the panel shows the right kind of input for it. Filters combine with AND — a row must satisfy every active filter — and they stack on top of the search box and the status tiles.

Field type	Input you get	How it matches
Text	A single text box	Case-insensitive "contains". Partial words match.
Checklist	Tick boxes, built from the values actually in your data (plans, barangays, cities, regions, statuses, LCP, NAP, ports, VLANs)	Exact match against any ticked value. Nothing ticked means the filter is off.
Number	From and To boxes	Inclusive range. Either end can be left blank.
Date	From and To date pickers	Inclusive range of whole days.
Date and time	From and To date-and-time pickers	Inclusive range down to the minute.

CLEARING FILTERS

Emptying a field removes that filter rather than matching blank values. The funnel icon turns coloured while any filter is active, and an "All records" button resets the status tiles.

5.3 Status tiles

Above or beside a list, tiles count the records in each status and act as one-click filters. The counts reflect what your search and filters have already narrowed down, not the whole table.

5.4 Card view and table view

Lists offer both a card view and a table view. Table view adds column controls:

- **Column visibility** — tick which columns to show; your choice is remembered per screen.
- **Reorder** — drag a column heading to move it.
- **Resize** — drag the divider between two headings.
- **Sort** — click a heading to sort; click again to reverse.

AGENTS

Agents get a fixed column set on Job Order and no column-settings control, so the columns cannot be changed.

5.5 Detail panels

Clicking a row opens its detail panel. Chevrons at the top step to the previous or next record in the filtered list without going back. A gear icon lets most roles choose which fields to show and in what order. Related records — applications, job orders, invoices, transactions — are listed at the bottom and can be opened from there.

5.6 Export

The download icon exports what you are currently looking at — the filtered, searched set with your visible columns, not the whole table. Lists export to CSV; reports and payout histories export to PDF. Export is disabled while a list is empty or loading.

5.7 Paging

Lists page in fixed sizes with first, previous, next and last controls, and a "showing X to Y of Z" readout. Changing a filter or the page size returns you to page 1.

6. Every screen, step by step

This is the main part of the guide. It takes every screen in the menu, in menu order, and shows you how to work it: what the screen is for, how to open it, what to do on it in order, what each button does, what you can filter the list on, and every form it asks you to fill in — field by field, including which fields you cannot leave blank.

IF A SCREEN HERE IS NOT IN YOUR MENU

Each entry says what you need to be to open it. Screens you have no need for are simply not shown to you, so do not worry if your menu is shorter than this list. Skip to the ones you recognise.

6.1 Dashboard

Dashboard

To open it: Dashboard in the sidebar · You need to be: an administrator or a system administrator

Operational overview for the office — headline counts and recent activity across applications, orders and billing.

STEP BY STEP

1. Open Dashboard in the sidebar.
2. The list loads.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.2 Dashboard

Dashboard

To open it: Dashboard in the sidebar · You need to be: an agent

An agent's own landing screen: their four earnings balances, referral counts, the onboarding milestone, and a shortcut into the application form.

STEP BY STEP

1. Open Dashboard in the sidebar.
2. The list loads.

BUTTONS ON THIS SCREEN

Control	What it does
Refresh	Fetches the latest records now.
Show balances	Acts on the current screen or selection.
Show referrals	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Refresh icon	Fetches the latest records now.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.3 Monitoring

Monitoring

To open it: Monitoring in the sidebar · You need to be: a system administrator or an administrator

Live view of field activity, including technician locations, for supervising work as it happens.

STEP BY STEP

1. Open Monitoring in the sidebar.
2. The list loads showing only records that belong to your organisation.
3. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.

BUTTONS ON THIS SCREEN

Control	What it does
Manage Templates	Acts on the current screen or selection.
Widget Settings	Acts on the current screen or selection.
Refresh All Widgets	Acts on the current screen or selection.
Exit Edit Mode	Acts on the current screen or selection.
Edit Layout	Opens the layout for changes.
Done	Records the visit as complete.
Load Template	Acts on the current screen or selection.
Delete Template	Removes the template, after a confirmation.
Decrease Font Size	Acts on the current screen or selection.
Increase Font Size	Acts on the current screen or selection.
Bar Chart	Acts on the current screen or selection.
Line Chart	Acts on the current screen or selection.
Pie Chart	Acts on the current screen or selection.
List View	Acts on the current screen or selection.
Table View	Acts on the current screen or selection.
Grid View	Acts on the current screen or selection.
Edit Grid Layout	Opens the grid layout for changes.
Save and Close	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Refresh icon	Fetches the latest records now.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.4 Billing

A group in the sidebar, visible to administrator, customer. It expands to 12 screens, covered below. The group is hidden entirely from a role that can open none of them.

6.4.1 Customer

To open it: Billing > Customer · You need to be: an administrator or a head technician

The customer master list — accounts, plans, balances and the billing details behind them.

STEP BY STEP

1. Open Billing > Customer.
2. The list loads showing only records that belong to your organisation.
3. The screen then keeps itself current — records created or changed by other users appear without you reloading.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Press the funnel icon for field-by-field filtering. 50 fields are available; they are listed under Filters below, and they combine with AND.
6. Switch between card and table view. Table view adds the column controls.
7. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
8. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
9. Related records — applications, orders, invoices, transactions — are listed at the bottom of the panel and can be opened from there.
10. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.
11. Page through the results with the first, previous, next and last controls.
12. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
First Page	Jumps to the first page of results.
Last Page	Jumps to the last page of results.
All Customers	Clears the status tile filter.
Back to Status Filters	On a phone, returns to the status panel.

Control	What it does
Column Visibility	Choose which columns the table shows. Your choice is remembered for this screen.
Card	Switches the list to card view.
Table	Switches the list to table view, which adds the column controls.
Export to CSV	Downloads what you are currently viewing as a spreadsheet — the filtered rows and visible columns only.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Funnel icon	Opens the field-by-field filter panel. Turns coloured while any filter is active.
Refresh icon	Fetches the latest records now.
View switch	Swaps between card and table layout.
Column settings	Tick which columns the table shows.
Download icon	Exports the rows you are currently viewing.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.

FILTERS

Press the funnel icon and you can narrow the list on any of these 50 things. Set as many as you like — the list keeps only the rows that satisfy all of them.

You can filter on	How you set it	What it does
First Name	Type text	Keeps rows containing what you typed. Part words count.
Middle Initial	Type text	Keeps rows containing what you typed. Part words count.
Last Name	Type text	Keeps rows containing what you typed. Part words count.
Email Address	Type text	Keeps rows containing what you typed. Part words count.
Contact Number (Primary)	Type text	Keeps rows containing what you typed. Part words count.
Contact Number (Secondary)	Type text	Keeps rows containing what you typed. Part words count.
Address	text	
Location	Type text	Keeps rows containing what you typed. Part words count.
Barangay	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
City	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Region	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Address Coordinates	Type text	Keeps rows containing what you typed. Part words count.
Housing Status	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Referred By	Type text	Keeps rows containing what you typed. Part words count.
Desired Plan	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
House Front Image	Type text	Keeps rows containing what you typed. Part words count.
Account No	Type text	Keeps rows containing what you typed. Part words count.

You can filter on	How you set it	What it does
Customer Created At	From and To	Keeps rows between the two moments, to the minute.
Customer Created By	bigint	
Customer Modified By	Type text	Keeps rows containing what you typed. Part words count.
Customer Modified Date	From and To	Keeps rows between the two moments, to the minute.
Date Installed	From and To dates	Keeps rows between the two dates, both days included.
Plan	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Account Balance	decimal	
Balance Update Date	From and To	Keeps rows between the two moments, to the minute.
Billing Day	From and To	Keeps rows between the two numbers, both included.
Billing Status	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Billing Account Created At	From and To	Keeps rows between the two moments, to the minute.
Billing Account Created By	bigint	
Billing Account Updated At	From and To	Keeps rows between the two moments, to the minute.
Billing Account Updated By	Type text	Keeps rows containing what you typed. Part words count.
Total Paid	decimal	
Username	Type text	Keeps rows containing what you typed. Part words count.
Username Status	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Connection Type	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Router Model	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Router/Modem SN	Type text	Keeps rows containing what you typed. Part words count.
IP Address	Type text	Keeps rows containing what you typed. Part words count.
LCP	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
NAP	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Port	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
VLAN	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
LCPNAP	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Usage Type	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Technical Details Created At	From and To	Keeps rows between the two moments, to the minute.
Technical Details Created By	bigint	
Technical Details Updated At	From and To	Keeps rows between the two moments, to the minute.
Technical Details Updated By	Type text	Keeps rows containing what you typed. Part words count.
Online Status	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.
Group	Tick from a list	Keeps rows matching any option you tick. Untick all to switch it off.

COLUMNS

Status · Billing Status · Account No. · Date Installed · Full Name · Address · Contact Number · Email Address · Plan · Account Balance · Username · Connection Type · Router Model · Router/Modem SN · LCPNAP · PORT · VLAN · Billing Day · Total Paid · Provider · LCP · NAP · Modified By · Modified Date · Barangay · City · Region · LCPNAPPORT · Usage Type · Referred By · Second Contact Number · Mikrotik ID · IP · Group · Housing Status · Address Coordinates · Location · Customer Created At · Billing Account Created At · Technical Details Created At

6.4.2 Transaction List

To open it: Billing > Transaction List · You need to be: an administrator

Every payment recorded against an account, however it was taken.

STEP BY STEP

1. Open Billing > Transaction List.
2. The list loads.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.4.3 Revert Requests

To open it: Billing > Revert Requests · You need to be: a system administrator or an administrator

Requests to reverse a mistaken transaction, waiting for an administrator to approve or refuse.

STEP BY STEP

1. Open Billing > Revert Requests.
2. The list loads showing only records that belong to your organisation.
3. The screen then keeps itself current — records created or changed by other users appear without you reloading.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
6. Page through the results with the first, previous, next and last controls.
7. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
First Page	Jumps to the first page of results.
Last Page	Jumps to the last page of results.
Refresh	Fetches the latest records now.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

6.4.4 Payment Portal

To open it: Billing > Payment Portal · You need to be: an administrator

Payments taken through the online portal, and the state of each attempt.

STEP BY STEP

1. Open Billing > Payment Portal.
2. The list loads showing only records that belong to your organisation.
3. The screen then keeps itself current — records created or changed by other users appear without you reloading.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Press the funnel icon for field-by-field filtering. 14 fields are available; they are listed under Filters below, and they combine with AND.
6. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
7. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
8. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.
9. Page through the results with the first, previous, next and last controls.
10. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
First Page	Jumps to the first page of results.
Last Page	Jumps to the last page of results.

6.5 Application

Application

To open it: Application in the sidebar · You need to be: an administrator or a head technician

The intake queue. Every enquiry lands here and is triaged from here into a scheduled installation.

STEP BY STEP

1. Open Application in the sidebar.
2. The list loads showing only records that belong to your organisation.
3. The screen then keeps itself current — records created or changed by other users appear without you reloading.
4. Narrow to a single status by pressing one of the status tiles. The counts on the tiles reflect what your search and filters have already narrowed down. Press the "All" tile to clear it again.
5. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
6. Press the funnel icon for field-by-field filtering. 30 fields are available; they are listed under Filters below, and they combine with AND.
7. Switch between card and table view. Table view adds the column controls.
8. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
9. Press "Open Application Form" to add a record. Required fields are marked with an asterisk and are checked before the form will save.
10. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
11. Related records — applications, orders, invoices, transactions — are listed at the bottom of the panel and can be opened from there.
12. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.
13. Page through the results with the first, previous, next and last controls.
14. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
Open Application Form	Opens the blank application form.
All Applications	Clears the status tile filter.

THE "ADD APPLICATION" FORM

17 fields, 7 you must fill in.

Field	What you enter	Must fill in	Notes
Status	Choice	Yes	choose from a list the system keeps
First Name	Text	Yes	
M.I.	Text		
Last Name	Text	Yes	
Email Address	E-mail	Yes	
Mobile Number	Phone number	Yes	
Second Mobile Number	Phone number		
Installation Address	Long text	Yes	
Landmark	Text		
Region	Text		
City	Text		
Barangay	Text		
Location	Text		
Desired Plan	Text	Yes	
Promo	Text		
Referred By	Text		
Government Valid ID	Text		

It will not save until these are right: "First name is required"; "Last name is required"; "Email address is required"; "Invalid email address format"; "Mobile number is required"; "Mobile number must be 10-11 digits"; "Secondary mobile number must be 10-11 digits"; "Installation address is required"; "Desired plan is required"; "You must agree to the terms and conditions"; "Validation errors:\n".

6.6 Job Order

Job Order

To open it: Job Order in the sidebar · You need to be: an administrator, a technician, an agent or a head technician

Installations for new connections: scheduling, assignment, the technician's record of the visit, and approval into billing.

STEP BY STEP

1. Open Job Order in the sidebar.
2. The list loads showing only records that belong to your organisation.
3. The screen then keeps itself current — records created or changed by other users appear without you reloading.
4. Narrow to a single status by pressing one of the status tiles. The counts on the tiles reflect what your search and filters have already narrowed down. Press the "All" tile to clear it again.
5. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
6. Press the funnel icon for field-by-field filtering. 48 fields are available; they are listed under Filters below, and they combine with AND.
7. Set the From and To dates to bound the list by date.
8. Switch between card and table view. Table view adds the column controls.
9. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
10. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
11. Related records — applications, orders, invoices, transactions — are listed at the bottom of the panel and can be opened from there.
12. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.
13. Page through the results with the first, previous, next and last controls.
14. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
All Job Orders	Clears the status tile filter.
Back to Filters	On a phone, returns to the filter panel.
Column Visibility	Choose which columns the table shows. Your choice is remembered for this screen.
Card	Switches the list to card view.
Table	Switches the list to table view, which adds the column controls.
Export to CSV	Downloads what you are currently viewing as a spreadsheet — the filtered rows and visible columns only.
First Page	Jumps to the first page of results.
Last Page	Jumps to the last page of results.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Funnel icon	Opens the field-by-field filter panel. Turns coloured while any filter is active.
Refresh icon	Fetches the latest records now.
View switch	Swaps between card and table layout.
Column settings	Tick which columns the table shows.
Download icon	Exports the rows you are currently viewing.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.
From and To dates	Bounds the list by date.

FILTERS

Press the funnel icon and you can narrow the list on any of these 48 things. Set as many as you like — the list keeps only the rows that satisfy all of them.

6.7 Service Order

Service Order

To open it: Service Order in the sidebar · You need to be: an administrator, a technician or a head technician

Work on existing customers — relocations, plan changes, faults — following the same shape as a job order.

STEP BY STEP

1. Open Service Order in the sidebar.
2. The list loads showing only records that belong to your organisation.
3. The screen then keeps itself current — records created or changed by other users appear without you reloading.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Press the funnel icon for field-by-field filtering. 46 fields are available; they are listed under Filters below, and they combine with AND.
6. Switch between card and table view. Table view adds the column controls.
7. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
8. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
9. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.
10. Page through the results with the first, previous, next and last controls.
11. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
All Service Orders	Acts on the current screen or selection.
Back to Filters	On a phone, returns to the filter panel.
Column Visibility	Choose which columns the table shows. Your choice is remembered for this screen.

Column settings	Tick which columns the table shows.
Download icon	Exports the rows you are currently viewing.
Row	Click a row to open its detail panel.

Control	What it does
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.
From and To dates	Bounds the list by date.

FILTERS

No funnel-filter panel. The list is narrowed with the search box and the From and To date boxes.

COLUMNS

Transaction ID · Customer Name · Service Type · Date · Status · Amount

THE "BONUS PAYOUT" FORM

5 fields, 5 you must fill in.

Field	What you enter	Must fill in	Notes
Transaction Type	Choice	Yes	choose from: Payout, Add Bonus
Reference Number	Text	Yes	filled in for you
Total Amount	Number	Yes	
Proof	Text	Yes	
Remarks	Long text	Yes	

1 file can be attached here. Hover an attached image to view, replace or remove it.

THE "COMMISSION PAYOUT" FORM

6 fields, 4 you must fill in.

Field	What you enter	Must fill in	Notes
Reference Number	Text	Yes	filled in for you
Start Date	Date		
End Date	Date		
Total Amount	Number	Yes	
Proof of Payment	Text	Yes	
Remarks	Long text	Yes	

1 file can be attached here. Hover an attached image to view, replace or remove it.

THE "INCENTIVES PAYOUT" FORM

5 fields, 5 you must fill in.

Field	What you enter	Must fill in	Notes
Transaction Type	Choice	Yes	choose from: Payout, Add Incentives
Reference Number	Text	Yes	filled in for you
Total Amount	Number	Yes	
Proof	Text	Yes	
Remarks	Long text	Yes	

It will not save until these are right: "Agent, reference number, amount, proof, and remarks are required."; "Failed to upload proof of payment image.".

1 file can be attached here. Hover an attached image to view, replace or remove it.

6.13.2 Team Agents

To open it: Agent > Team Agents · You need to be: an administrator or a system administrator

Agent teams and who belongs to them.

STEP BY STEP

1. Open Agent > Team Agents.
2. The list loads.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.13.3 Agent Management

To open it: Agent > Agent Management · You need to be: an administrator or a system administrator

Agent accounts, including each one's commission rate.

STEP BY STEP

1. Open Agent > Agent Management.
2. The list loads showing only records that belong to your organisation.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
5. Page through the results with the first, previous, next and last controls.
6. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
First Page	Jumps to the first page of results.
Previous Page	Acts on the current screen or selection.
Next Page	Acts on the current screen or selection.
Last Page	Jumps to the last page of results.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.

Control	What it does
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

THE "USER" FORM

14 fields, 9 you must fill in.

Field	What you enter	Must fill in	Notes
First Name	Text	Yes	
Last Name	Text	Yes	
Middle Initial	Text		
Username	Text	Yes	
Email Address	E-mail	Yes	
Contact Number	Text		
Organization	Choice		choose from: Select Organization
Role	Text	Yes	filled in for you; looks different depending on how you opened it
Team	Choice		choose from: Select Team
Commission	Number	Yes	
Quota	Number	Yes	
Incentives	Number	Yes	
Remarks	Long text		
Confirm Password	Text	Yes	

It will not save until these are right: "Required"; "Required"; "Required"; "Required"; "Required"; "Min 8 chars"; "Mismatch"; "Required"; "Required"; "Required"; "Required".

6.13.4 Agent Payout

To open it: Agent > Agent Payout · You need to be: an administrator or a system administrator

Payout runs to agents.

STEP BY STEP

1. Open Agent > Agent Payout.
2. The list loads.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Set the From and To dates to bound the list by date.
5. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
6. Press "New Payout" to add a record. Required fields are marked with an asterisk and are checked before the form will save.
7. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without

closing it.

8. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.
9. Page through the results with the first, previous, next and last controls.

BUTTONS ON THIS SCREEN

Control	What it does
First Page	Jumps to the first page of results.
Last Page	Jumps to the last page of results.
New Payout	Opens the form to create a new payout.
All Agents	Acts on the current screen or selection.
Add Record	Opens the form to create a new record.
Date Filters	Opens the From and To date boxes.
Column Visibility	Choose which columns the table shows. Your choice is remembered for this screen.
Export to PDF	Downloads what you are currently viewing as a PDF.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Column settings	Tick which columns the table shows.
Download icon	Exports the rows you are currently viewing.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.
From and To dates	Bounds the list by date.

FILTERS

No funnel-filter panel. The list is narrowed with the search box and the From and To date boxes.

COLUMNS

Transaction ID · Customer Name · Service Type · Date · Status · Amount

THE "AGENT PAYOUT" FORM

5 fields, 5 you must fill in.

Field	What you enter	Must fill in	Notes
Payout Type	Choice	Yes	choose from: Commission (Balance), Incentives, Bonus, All Balance
Reference Number	Text	Yes	filled in for you
Total Amount	Number	Yes	
Proof	Text	Yes	
Remarks	Long text	Yes	

It will not save until these are right: "Agent, reference number, amount, proof, and remarks are required."; "Failed to upload proof of payment image.".

1 file can be attached here. Hover an attached image to view, replace or remove it.

6.14 Inventory

A group in the sidebar, visible to administrator, inventorystaff. It expands to 2 screens, covered below. The group is hidden entirely from a role that can open none of them.

THE "EDIT CONCERN" FORM

3 fields, 1 you must fill in.

Field	What you enter	Must fill in	Notes
Concern Name	Text	Yes	
Modified Date	Text		filled in for you
Modified By	Text		filled in for you

It will not save until these are right: "Concern name is required".

6.15.17 Billing Configurations

To open it: Configurations > Billing Configurations · You need to be: a system administrator

Billing rules: cycles, due dates, charges and how statements are produced.

STEP BY STEP

1. Open Configurations > Billing Configurations.
2. The list loads.
3. Press "Create" to add a record. Required fields are marked with an asterisk and are checked before the form will save.

BUTTONS ON THIS SCREEN

Control	What it does
Edit	Opens the record for changes.
Delete	Removes the record, after a confirmation.
Update	Acts on the current screen or selection.
Create	Creates a new record.
Cancel	Closes without keeping the changes.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.16 Users

A group in the sidebar, visible to superadmin. It expands to 5 screens, covered below. The group is hidden entirely from a role that can open none of them.

6.16.1 Users Management

To open it: Users > Users Management · You need to be: a system administrator

Staff accounts: who exists, their role and their organisation.

STEP BY STEP

1. Open Users > Users Management.
2. The list loads showing only records that belong to your organisation.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
5. Page through the results with the first, previous, next and last controls.
6. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

THE "TECHNICIAN" FORM

3 fields, none compulsory.

Field	What you enter	Must fill in	Notes
First Name	Text		
Middle Initial	Text		
Last Name	Text		

It will not save until these are right: "Required"; "Required".

6.16.3 Team Agents

To open it: Users > Team Agents · You need to be: a system administrator

Agent teams and who belongs to them.

STEP BY STEP

1. Open Users > Team Agents.
2. The list loads.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.16.4 Organization

To open it: Users > Organization · You need to be: a system administrator

Organisations, where one deployment serves more than one operator.

STEP BY STEP

1. Open Users > Organization.
2. The list loads.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.16.5 Roles

To open it: Users > Roles · You need to be: a system administrator

Roles and, for custom roles, the sections each may open.

STEP BY STEP

1. Open Users > Roles.
2. The list loads.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

6.17 Logs

A group in the sidebar, visible to administrator. It expands to 8 screens, covered below. The group is hidden entirely from a role that can open none of them.

6.17.1 Disconnected Logs

To open it: Logs > Disconnected Logs · You need to be: an administrator

A record of every disconnection.

STEP BY STEP

1. Open Logs > Disconnected Logs.
2. The list loads showing only records that belong to your organisation.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. In table view you can choose which columns to show, drag a heading to reorder, drag a divider to resize, click a heading to sort, and again to reverse it. Your layout is remembered for this screen.
5. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
6. Page through the results with the first, previous, next and last controls.

6.18 Settings

Settings

To open it: Settings in the sidebar · You need to be: a system administrator

System-wide appearance and behaviour, including the colour palette and image sizes.

STEP BY STEP

1. Open Settings in the sidebar.
2. The list loads.
3. Press "Add Custom Palette" to add a record. Required fields are marked with an asterisk and are checked before the form will save.

BUTTONS ON THIS SCREEN

Control	What it does
Uploading	Shown while the action is in progress.
Upload Logo	Acts on the current screen or selection.
Delete palette	Removes the palette, after a confirmation.
Add Custom Palette	Opens the form to create a new custom palette.
Create your own color scheme	Creates a new your own color scheme.
Saving	Shown while the action is in progress.
Save	Writes your changes and closes the form.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

THE "ADD CUSTOM COLOR PALETTE" FORM

3 fields, 3 you must fill in.

Field	What you enter	Must fill in	Notes
Palette Name	Text	Yes	
Primary Color	Text	Yes	
Accent Color	Text	Yes	

It will not save until these are right: "Palette name is required"; "Invalid hex color"; "Invalid hex color".

THE "GENERATE BILLING" FORM

1 field, none compulsory.

Field	What you enter	Must fill in	Notes
Service Charge (optional)	Text		

7. Every screen on the phone, step by step

The same work, done on a phone. Where a screen appears in both places you are looking at exactly the same records — anything you change on the phone is there on the computer straight away, and the other way round. What differs is the handling, so these entries concentrate on that: what the bottom bar shows you, and how the list and the detail view take turns on a small screen.

7.1 Operations

7.1.1 Dashboard

To open it: the Dashboard tab, or More then Dashboard · You need to be: an agent

An agent's own landing screen: their four earnings balances, referral counts, the onboarding milestone, and a shortcut into the application form.

STEP BY STEP

1. Open the Dashboard tab, or More then Dashboard.
2. The list loads.

BUTTONS ON THIS SCREEN

7.1.5 Service Order

To open it: the Service Order tab, or More then Service Order · You need to be: an administrator, a technician or a head technician

Work on existing customers — relocations, plan changes, faults — following the same shape as a job order.

STEP BY STEP

1. Open the Service Order tab, or More then Service Order.
2. The list loads.
3. Narrow to a single status by pressing one of the status tiles. The counts on the tiles reflect what your

search and filters have already narrowed down. Press the "All" tile to clear it again.

4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
6. Page through the results with the first, previous, next and last controls.
7. On a phone the list and the detail view take turns rather than sitting side by side; use the back control to return to the list.

BUTTONS ON THIS SCREEN

Control	What it does
Work Started	Acts on the current screen or selection.
Filters	Acts on the current screen or selection.
Retry	Acts on the current screen or selection.
Filter by Status	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

7.1.6 Work Order

To open it: the Work Order tab, or More then Work Order · You need to be: an administrator, a technician, an agent, outside-plant staff or a head technician

Internal and outside-plant work that is not tied to one customer account.

STEP BY STEP

1. Open the Work Order tab, or More then Work Order.
2. The list loads.
3. Narrow to a single status by pressing one of the status tiles. The counts on the tiles reflect what your search and filters have already narrowed down. Press the "All" tile to clear it again.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
6. Page through the results with the first, previous, next and last controls.

BUTTONS ON THIS SCREEN

Control	What it does
Work Started	Acts on the current screen or selection.
Filter by Status	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

THE "ASSIGN WORK ORDER" FORM

2 fields, none compulsory.

Field	What you enter	Must fill in	Notes
Work Status	Searchable list		
Remarks	Long text		

It will not save until these are right: "Missing Info".

7.1.7 LCP/NAP

To open it: the LCP/NAP tab, or More then LCP/NAP · You need to be: an administrator, a technician, outside-plant staff or a head technician

Map of the outside plant: where each LCP and NAP sits, and what is served from it.

STEP BY STEP

1. Open the LCP/NAP tab, or More then LCP/NAP.
2. The list loads.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

THE "ADD LCP NAP LOCATION" FORM

3 fields, none compulsory.

Field	What you enter	Must fill in	Notes
LCPNAP NAME	Text		filled in for you
Modified By	Text		filled in for you
No results	Searchable list		

Control	What it does
Amount	Acts on the current screen or selection.
Resume Payment	Acts on the current screen or selection.
Cancel	Closes without keeping the changes.

UNLABELLED CONTROLS

Control	What it does
Refresh icon	Fetches the latest records now.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

7.2.2 Overdue

To open it: the Overdue tab, or More then Overdue · You need to be: an administrator

Accounts past their due date, for follow-up before disconnection.

STEP BY STEP

1. Open the Overdue tab, or More then Overdue.
2. The list loads.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.

BUTTONS ON THIS SCREEN

Control	What it does
Retry	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Download icon	Exports the rows you are currently viewing.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

COLUMNS

ID · Account No · Customer Name · Overdue Date · Invoice ID · Plan · Contact · Email · Address

7.3 Agent

7.3.1 History

To open it: the History tab, or More then History · You need to be: an administrator or an agent

Agent earnings. For the office, the place payouts are created; for an agent, their own read-only history of commission, incentives and bonus.

STEP BY STEP

1. Open the History tab, or More then History.
2. The list loads.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Set the From and To dates to bound the list by date.
5. Press "Add Bonus" to add a record. Required fields are marked with an asterisk and are checked before the form will save.
6. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
7. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.

BUTTONS ON THIS SCREEN

7.5.12 PPPoE

To open it: the PPPoE tab, or More then PPPoE · You need to be: an administrator

PPPoE settings applied when a subscriber account is provisioned.

STEP BY STEP

1. Open the PPPoE tab, or More then PPPoE.
2. The list loads.
3. Press "Create/Edit Pattern" to add a record. Required fields are marked with an asterisk and are checked before the form will save.

BUTTONS ON THIS SCREEN

Control	What it does
Create/Edit Pattern	Creates a new /edit pattern.
Save Pattern	Acts on the current screen or selection.
Cancel	Closes without keeping the changes.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

7.5.13 Concerns

To open it: the Concerns tab, or More then Concerns · You need to be: an administrator

The concern types a customer can choose when raising support.

STEP BY STEP

1. Open the Concerns tab, or More then Concerns.
2. The list loads showing only records that belong to your organisation.
3. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
4. Press "Add Concern" to add a record. Required fields are marked with an asterisk and are checked before the form will save.
5. Page through the results with the first, previous, next and last controls.

BUTTONS ON THIS SCREEN

Control	What it does
Add Concern	Opens the form to create a new concern.
Retry Connection	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Paging controls	First, previous, next and last, with a "showing X to Y of Z" readout.
Rows per page	Changes how many rows a page holds. Returns you to page one.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

THE "EDIT CONCERN" FORM

2 fields, none compulsory.

Field	What you enter	Must fill in	Notes
Modified Date	Text		filled in for you
Modified By	Text		filled in for you

It will not save until these are right: "Concern name is required".

7.5.14 Billing Cfg

To open it: the Billing Cfg tab, or More then Billing Cfg · You need to be: an administrator

Billing rules: cycles, due dates, charges and how statements are produced.

STEP BY STEP

1. Open the Billing Cfg tab, or More then Billing Cfg.
2. The list loads.

BUTTONS ON THIS SCREEN

Control	What it does
Save	Writes your changes and closes the form.

Control	What it does
Cancel	Closes without keeping the changes.

FILTERS

None — this screen is a form or a fixed view rather than a filterable list.

7.6 Logs

7.6.1 SMS Logs

To open it: the SMS Logs tab, or More then SMS Logs · You need to be: an administrator

Every SMS the system sent, and whether it was delivered.

STEP BY STEP

1. Open the SMS Logs tab, or More then SMS Logs.
2. The list loads showing only records that belong to your organisation.
3. Narrow to a single status by pressing one of the status tiles. The counts on the tiles reflect what your search and filters have already narrowed down. Press the "All" tile to clear it again.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
6. Press the download icon to export exactly what you are looking at — the filtered rows and visible columns, not the whole table.

BUTTONS ON THIS SCREEN

Control	What it does
Retry	Acts on the current screen or selection.

UNLABELLED CONTROLS

Control	What it does
Search box	Matches your text against every visible value in the row. Case and spaces are ignored.
Refresh icon	Fetches the latest records now.
Download icon	Exports the rows you are currently viewing.
Row	Click a row to open its detail panel.
Chevrons in panel	Step to the previous or next record without closing the panel.

FILTERS

No funnel-filter panel. The list is narrowed with the search box.

COLUMNS

Date · Recipient · Sender · Message · Provider · Account No. · Status · Source · Length · Sent At

7.6.2 Email Logs

To open it: the Email Logs tab, or More then Email Logs · You need to be: an administrator

Every e-mail the system sent.

STEP BY STEP

1. Open the Email Logs tab, or More then Email Logs.
2. The list loads showing only records that belong to your organisation.
3. Narrow to a single status by pressing one of the status tiles. The counts on the tiles reflect what your search and filters have already narrowed down. Press the "All" tile to clear it again.
4. Type into the search box to narrow the list. It matches across every visible value, ignoring case and spaces.
5. Click a row to open its detail panel. Use the chevrons at the top to step through the filtered list without closing it.
6. Page through the results with the first, previous, next and last controls.

7.8 Screens you reach from Menu

These are reached from Menu rather than the bottom bar. Notifications, About App and Release Notes are available to every role; the rest appear for administrators.

Entry	What it is for
Menu	
Time In/Out	Configuration maintained from the Menu tab.
Notifications	Configuration maintained from the Menu tab.
About App	Configuration maintained from the Menu tab.
Release Notes	What changed in each release, filtered to what matters for your role.
Operations	
Monitoring	Live view of field activity, including technician locations, for supervising work as it happens.
Applications	Configuration maintained from the Menu tab. Has a search box.
App Visits	Survey visits confirming an address can be served, and on what facility. Has a search box.
Job Order	Installations for new connections: scheduling, assignment, the technician's record of the visit, and approval into billing. Has a search box.

Entry	What it is for
Service Order	Work on existing customers — relocations, plan changes, faults — following the same shape as a job order. Has a search box.
Work Order	Internal and outside-plant work that is not tied to one customer account. Has a search box.
LCP/NAP Location	Map of the outside plant: where each LCP and NAP sits, and what is served from it. Has a search box.
SMS Blast	Send a message to many customers at once, and review what was sent. Has a search box.
Reports	Generated reports over the operational and billing data. Has a search box.
Billing	
Customer	The customer master list — accounts, plans, balances and the billing details behind them. Has a search box.
Transaction List	Every payment recorded against an account, however it was taken. Has a search box.
Revert Requests	Requests to reverse a mistaken transaction, waiting for an administrator to approve or refuse. Has a search box.
Payment Portal	Payments taken through the online portal, and the state of each attempt. Has a search box.
Statements	Statements of account: generation for a period and the statements produced. Has a search box.
SOA Generation	The run that produces statements of account for a billing period.
Invoice	Invoices raised against statements.
Overdue	Accounts past their due date, for follow-up before disconnection. Has a search box.
SO Charge	Charges arising from service orders. Has a search box.
DC Notice	Disconnection notices issued to overdue accounts.
Rebates	Credits applied across many accounts at once.
Discounts	Discounts available and where they have been applied. Has a search box.
Billing List	Consolidated billing list across accounts. Has a search box.
Staggered Payment	Instalment arrangements for customers settling a balance over time.
Agent	
Pay Out/In	Agent earnings. For the office, the place payouts are created; for an agent, their own read-only history of commission, incentives and bonus. Has a search box.
Team Agents	Agent teams and who belongs to them.
Agent Management	Agent accounts, including each one's commission rate. Has a search box.
Agent Payout	Payout runs to agents. Has a search box.
Affiliates	Affiliate groupings used for reporting and commission. Has a search box.
Inventory	
Inventory	Stock on hand: items, their quantities and their movements. Has a search box.
Inventory Category List	The categories that group inventory items. Has a search box.
Configurations	
Promo	Promotions offered to applicants and customers. Has a search box.
Plan	The service plans customers can be sold, with their prices. Has a search box.
Location	The region, city, barangay and village hierarchy used by every address field. Has a search box.
LCP	Configuration maintained from the Menu tab. Has a search box.
NAP	Configuration maintained from the Menu tab. Has a search box.
Usage Type	Configuration maintained from the Menu tab. Has a search box.
Payment Method	Configuration maintained from the Menu tab. Has a search box.
Work Category	Configuration maintained from the Menu tab. Has a search box.
Status Remarks	The standard remarks that can be attached to a status change. Has a search box.

Entry	What it is for
Router Models	Configuration maintained from the Menu tab. Has a search box.
Ports	Individual ports on each NAP and what occupies them. Has a search box.
Radius Config	Connection to the RADIUS server that authenticates subscriber sessions.
SmartOLT Config	Configuration maintained from the Menu tab.
SMS Config	Credentials and settings for the SMS gateway.
SMS Template	Reusable message templates for SMS.
Email Templates	Reusable templates for outgoing e-mail.
PPPoE Setup	PPPoE settings applied when a subscriber account is provisioned.
Concern Config	The concern types a customer can choose when raising support. Has a search box.
Billing Configurations	Billing rules: cycles, due dates, charges and how statements are produced.
Users	
Users Management	Staff accounts: who exists, their role and their organisation. Has a search box.
Tech Users	Technician accounts and their field assignments. Has a search box.
Organizations	Organisations, where one deployment serves more than one operator.
Roles	Roles and, for custom roles, the sections each may open.
Logs	
Disconnected Logs	A record of every disconnection. Has a search box.
Reconnection Logs	A record of every reconnection. Has a search box.
SMS Logs	Every SMS the system sent, and whether it was delivered. Has a search box.
Email Logs	Every e-mail the system sent. Has a search box.
Data Logs	An audit trail of changes made to records, and by whom. Has a search box.
Smart OLT Logs	Raw log files from an integration, read from disk. Has a search box.
Radius Logs	Raw log output from the RADIUS integration. Has a search box.
System Logs	Application-level system log. Has a search box.
SMS Blast Logs	The result of each bulk SMS run. Has a search box.
Expenses	Operational expenses recorded against the business. Has a search box.
System	
Database Setup	Database preparation and maintenance tasks.
Database Test	Connection and integrity checks against the database.
Settings	System-wide appearance and behaviour, including the colour palette and image sizes.

8. Status words you will see

8.1 Application status

Value	Meaning
Pending	Received, not yet assessed.
Scheduled	A survey or installation visit has been booked.
Confirmed	Assessed and accepted.
In Progress	Being worked on.
No Facility	No infrastructure serves the address.
No Slot	Infrastructure exists but the nearest NAP is full.
Duplicate	The same enquiry already exists.
Cancelled	Withdrawn or abandoned.
Completed	Carried through to an installation.

8.2 Job order visit status

Value	Meaning	Visible to agents
In Progress	Scheduled or under way.	Yes
Reschedule	Visited but needs another visit.	Yes
Done	Installed. Counts as an onboarded referral and earns commission.	No — moves to History
Failed	Could not be installed.	No

8.3 Billing and commission status

Where	Values
Job order billing status	In Progress, Done — plus Approved and Failed set by the approval step
Commission status on a job order	Unpaid, shown to agents as "Not Collected"; Paid, shown as "Collected"
Payout record type	commission, incentives, incentives_payout, bonus, Bonus_payout, achievement
